PRESS RELEASE

INVISIBLE SYSTEMS LTD NAMED TO THE GSMA 100

Mobile Operators from around the world select Invisible Systems Ltd
as a growth leader in the Internet of Things

4 February 2019, London: The GSMA has named **Invisible Systems Ltd** to the 'GSMA 100', a global innovation discovery initiative designed to identify the world's most promising growth-stage companies and advance the next generation of connectivity and digital services. Invisible Systems Ltd is an Internet of Things company focused on the design, manufacture and supply of wireless LoRa and NB-IoT devices and provision of a cloud reporting software platform.

Pete Thompson, CEO, Invisible Systems Ltd: "We are excited to become members of the GSMA100 and believe that timing is perfect for Invisible Systems as we launch our LoRaWAN and NB-IoT range of devices. The GSMA100 will connect Invisible Systems to industry champions and partners for both deployment of the technology and investment to further accelerate innovation of the technology."

Laxmi Akkaraju, Chief Strategy Officer, GSMA: "We welcome Invisible Systems Ltd to the GSMA 100. The GSMA 100 companies are leaders in categories that are poised to drive digital transformation and industry growth. We look forward to working with Invisible Systems Ltd to unlock business development and investment opportunities and champion innovation in our industry."

Invisible Systems Ltd joins the second cohort of the GSMA 100. This includes: AppOnBoard, Cinarra, Cloudify, CUJOAI, DefinedCrowd, Genus AI, Invisible Systems, IoTium, Jiminy, KaiOS, Limitless, Litmus Automation, Lumina Networks, Messagenius, SecureHome, UserTribe, Vilynx, and Zeotap.

The GSMA 100 represents the innovation priorities of mobile operators around the world. Companies are referred into the programme through investment and key partners. Contributors to the GSMA 100 to date include: América Móvil, Blumberg Capital, British Telecom, China Mobile, Deutsche Telekom, EIT Digital, Etisalat, Telecom Italia, HV Holtzbrinck Ventures, KPN Ventures, MegaFon, MTN Group, Orange, Rogers Communications, Sony Innovation Fund, Telefónica, Telenor Group, Telstra Ventures, US Cellular and Vodafone, among others.
