Paige Wireless joins the global LoRa Alliance®

Union, New Jersey: Paige Wireless, a wholly-owned subsidiary of Paige Electric L.P., a cutting-edge technology company that is transforming industries with rapid wireless connectivity announced today that it has joined the distinguished LoRa Alliance®, an open Internet of Things (IoT) alliance with over 500 members. This membership will allow Paige Wireless to collaborate with industry leaders and advance their vision for changing the way the world connects.

The LoRa Alliance® is a non-profit organization dedicated to promoting interoperability and standardization of the LoRaWAN® protocol, a low-power wide-area network (LPWAN) technology that drives success for the Internet of Things. Through standardization and a strong certification program, the LoRa Alliance® delivers the interoperability needed for LPWA networks to scale, making LoRaWAN® the premier solution for global LPWAN deployments.

Paige Wireless is using the LoRaWAN® protocol and IoT applications to put power back in the hands of the industries that they serve. Joining the LoRa Alliance® will offer Paige Wireless access to technologies, R&D, and industry trends as they advance their offering. Paige Wireless will bring carrier-grade network deployment expertise and cutting edge technology to the alliance, working alongside members to create new standards and develop new works of interoperability for the LoRa Alliance®. This will ultimately increase the pace of adoption, reliability, and ease of deployment.

Julie Bushell, President of Paige Wireless says, "The exchange of ideas and collaboration on cutting-edge technology and standards within the LoRa Alliance® rapidly advances world-changing solutions. We are determined to open the door for our customers so they can utilize these technologies. At Paige Wireless, we are in the business of changing the way the world connects. We are incredibly excited to join the alliance with other like-minded industry leaders in our shared effort of continued advancement for LoRaWAN® technology and the Internet of Things."

"It is an honor to welcome Paige Wireless to the LoRa Alliance®," said Donna Moore, Chairwoman and CEO of the LoRa Alliance®. "The company brings strong prior experience with LoRaWAN® to the LoRa Alliance® and we look

forward to their contributions to advance the protocol and adoption of LoRaWAN worldwide. We are excited to learn about their activities and how they're deploying LoRaWAN® to benefit the industries they serve."

About Paige Wireless

Paige Wireless is the new innovative arm of Paige Electric Co, L.P., with a focus on bringing connectivity solutions to a variety of industrial verticals, for the purpose of remote data collection, automating tasks, security and asset management, resource control, observation, installations, and much more. Paige Wireless drastically expands Paige's offering of connected solutions, untethering the constraints of wired connectivity. By delivering fully-integrated solutions, Paige Wireless allows rapid adoption of the latest technological advances and the realization of its benefits. Spanning 30 unique markets and all seven continents, Paige and Paige Wireless are together, leading the world in innovative cable and wireless solutions. About LoRa Alliance®

The LoRa Alliance is an open, nonprofit association that has grown to over 500 members since its inception in March 2015, becoming one of the largest and fastest-growing alliances in the technology sector. Its members closely collaborate and share experiences to promote the LoRaWAN protocol as the leading open global standard for secure, carrier-grade IoT LPWAN connectivity. With the technical flexibility to address a broad range of IoT applications, both static and mobile, and a certification program to guarantee interoperability, the LoRaWAN protocol has already been deployed by major mobile network operators globally, with continuing wide expansion ongoing. For information about joining the LoRa Alliance, please visit <http://www.loraalliance.org/join>.
