Ref.: Intercomp Smart Parking Sensor S200LR positive assessment

Dear Sir,

According to LoRa Alliance Certification process description for LoRaWan devices detailed in the “Certification By Similarity Declaration V1_1”, the certification by similarity is an option to get the LoRa Alliance Certification.

Based on the information provided by Intercomp S.a.P, the device “Intercomp Smart Parking Sensor S200LR” meets all requirements specified by the LoRa Alliance, this device is a variant device which design is based on the already LoRaWAN certified device “EMBIT EMB-L1275 / AMB-LR1272E”.

According to the documentation provided by Intercomp S.a.P. the device under certification, have:

- The same LoRa transceiver
- The same LoRa protocol SW version
- The same MCU Core
- The same Clock design and implementation

than the certified integrated module, and the product’s application software cannot interfere with the execution of the LoRaWan protocol stack.

Data provided by Intercomp S.a.P comply with LoRa Alliance requirements for certification by similarity.
