# Mobile Application

## PARKING SPOT INSIGHTS

Parking spots can be seen on the map and change colors based on the occupancy.  Details on the parking spot can be seen by simply clicking on the spot.

## REAL-TIME ALERTS

Your phone will recieve **notifications in real-time** as vehicles park on unauthorized locations. Configure notifications to your liking and remain informed of parking activity.

## ASSISTED NAVIGATION

You can leverage google maps full navigation capabilities to **help you find the selected parking spot.**

## ANDROID & IOS SUPPORT

Our mobile application supports both **Android** and **iOS operating systems.**

## USER FRIENDLY DESIGN

Our customer's experience is important to us.  Our mobile app was designed for ease of use and **simplistic functionality.**
