# CloudGate

## nano

LTE CAT M1/NB1

AVAILABLE WITH OPTIONAL WiFi, LoRaWAN or BATTERY

NEW

## The ideal Smart Building & Smart Metering Gateway

- CloudGate with LTE CatM1/NB1 modem
- Ethernet, M-Bus and serial (RS232/RS485) interface
- Optional WiFi or LoRaWAN or Battery backup

# OPTION

## Superior indoor performance, ideal for smart building and smart energy

CloudGate nano was created with smart buildings in mind. The use of a LTE Cat M1/NB1 modem with high-power chipset ensuring better indoor coverage compared to traditional 2G/3G/4G modems, allows to connect devices deep inside buildings. By adding a Modbus and M-Bus connector it is possible to connect electricity, gas, water or calorie meters but also wired sensors that need to send data to a Cloud platform.

With the powerful LuvitRED program on CloudGate it is very straightforward to create the required data flow on the gateway or to perform edge processing on the data before it is sent to the Cloud. Data reduction through edge processing is vital in case of low bandwidth (and higher cost per bit) protocols such as CAT-M or NB-IoT to improve data performance and reduce connectivity cost.

### LTE Cat-M or NB-IoT

NB-IoT supports ultra-low complexity devices with very narrow bandwidth of 180 kHz. Due to its narrow bandwidth, the data rate peaks at around 60 kbps (for NB1). On the other hand, Cat-M1 operates at 1.08 MHz bandwidth with higher device complexity/cost than NB-IoT. The wider bandwidth allows Cat-M1 to achieve greater data rates (up to 1 Mbps for cat M1) and lower latency (10 to 15ms vs 1.6s to 10s). The link budget (coverage) for NB-IoT is also higher (164dB) than for LTE Cat M1 (155.7dB) and much higher than LTE Cat 4 (142.7dB) which means that coverage under difficult circumstances (like indoor) is best in Cat-NB1 mode.

Most common use cases of NB-IoT include utility meters and sensors. Typical use cases for Cat-M1 include connected vehicles and alarm panels.

Cat-M1 and NB-IoT are considered future-proof and are viewed as 5G technologies.

Feature	Sub Feature	Description
WWAN Modem LTE	Supported frequency bands	<ul style="list-style-type: none"> <li>FDD-LTE : B1/ B2/ B3/ B4/ B5/ B8/ B12/ B13/ B18/ B19/ B20/ B25/ B26/ B28</li> <li>TDD-LTE : B39 (for Cat M1 only)</li> </ul>
	Max. Connectivity speeds	<ul style="list-style-type: none"> <li>Cat M1: Max. 375Kbps (DL), Max. 375Kbps (UL)</li> <li>Cat NB1: Max. 32Kbps (DL), Max. 70Kbps (UL)</li> </ul>
WWAN Modem 2G	Supported frequency bands	850/900/1800/1900Mhz
	Max. Connectivity speeds	<ul style="list-style-type: none"> <li>EDGE: Max. 296Kbps (DL), Max. 236.8Kbps (UL)</li> <li>GPRS: Max. 107Kbps (DL), Max. 85.6Kbps (UL)</li> </ul>
WWAN antenna	Antenna connector	1x SMA (WWAN Main)
SIM	Type	USIM/SIM, class B and class C
	Dimension	microSIM (3FF)
	Location	Behind back cover plate
Ethernet interface	Speed	10/100Mbps (IEEE 802.3)
	Connector	1x RJ45, SW selectable as LAN or WAN
M-Bus interface	Type	Master only
	Max # slaves	4
	Connector	2-pin
Serial interface	RS232 mode	RX, TX, CTS, RTS, GND
	RS485 mode	Full duplex (RB+, RA-, TB+, TA-, GND) or Half duplex (TB+, TA-, GND)
	Connector	5-pin
LED	3 multi-color	<ul style="list-style-type: none"> <li>System</li> <li>WWAN state</li> <li>WWAN signal</li> </ul>
MicroSD card holder	Available	On main PCB
	Location	Behind back cover plate
WLAN (*)	Optional	<ul style="list-style-type: none"> <li>802.15.4 b/g/n, 2.4GHz or 5GHz. Client or access point mode</li> <li>Max 32 clients can be connected</li> </ul>
	Connector	1x RP-SMA (back-side)
LoRaWAN(*)	Optional	software-configurable as 8xxMHz or 9xxMHz
	Connector	1x RP-SMA (back-side)
Battery (*)	Optional	<ul style="list-style-type: none"> <li>Li-ion battery for last-gasp function (up to 1h)</li> <li>Capacity 980mAh</li> </ul>
Power control	Available	Timed wakeup, Ignition sensing (with extra 3rd pin on DC power connector)
Programming	Available	LuvitRED (graphical drag & drop) or SDK (C code)
Aluminum case	Dimension	102 x 97 x 26 mm 4 x 3.8 x 1 in
	Weight	220 g/7.7 oz (excl. optional cards)
	Front/back plate mounting	5x Torx T10 front, 5x Torx T10 back
Environmental	Operating temperature	-30°C to 70°C (-22°F to 158°F)
	Storage temperature	-40°C to 85°C (-40°F to 185°F)
Certification		CE, FCC, PTCRB, ISED, AT&T, Verizon, US Cellular, Telus
Compliance		RoHS, REACH, WEEE
Accessories		<ul style="list-style-type: none"> <li>LTE antenna</li> <li>AC power supply or DC power cable</li> <li>DIN rail mount</li> <li>Battery (not for versions with WLAN card or LoRaWAN card)</li> </ul>

(\*) Either the LoRa or WLAN or Battery can be mounted in production ex-factory as optional card on the main card

(\*) Order numbers differ per model

Product	PN
CloudGate nano	CM0126-12161
CloudGate nano with battery (WLAN & LoRaWAN not possible)	CM0126-12195
CloudGate nano with WLAN (battery back-up & LoRaWAN not possible)	CM0126-12162
CloudGate nano with LoRaWAN (battery back-up & WLAN not possible)	CM0126-12202
