Test report

LoRa Alliance End Device Certification Requirements

(*) Identification of item tested	RUBIN LW and RUBIN LW8
(*) Trademark	INTEGRA METERING
(*) Model and /or type reference tested	RUBIN LW and RUBIN LW8
(*) Other identification of the product	Final HW version: 04A Final FW Version: v70.6
(*) Features	Activation possibilities: OTAA & ABP. Supports: DICHannelReq and Block of LinkADRReq. Commands processing. Test sample description.
Manufacturer	INTEGRA METERING Address: 12 rue Font Grasse Postal code, City: 31700, Blagnac Country: France
Test method requested, standard	Lora Alliance Certification Program
Standard.....:	LoRaWAN v1.0.2
Test Specification.....:	LoRa Alliance End-Device Certification Requirements for EU863-870 V1.6
LoRa_Certification_Questionnaire.....:	LoRaWAN_Certification_Questionnaire_V.2.1
Test procedure(s).....:	PELR000_00 LoRa Alliance Testing Procedure
Supported Optional Features	
Adaptive Data Rate (ADR).....:	Yes
SF7BW250.....:	Yes
FSK50	No
Summary	IN COMPLIANCE
Approved by (name / position & signature)	Noemí Pérez Dans IoT Lab. Manager

Competences and guarantees

DEKRA Testing and Certification S.A.U is a LoRa Alliance accredited Test Lab competent to carry out the tests described in this report.

In order to assure the traceability to other national and international laboratories, DEKRA Testing and Certification S.A.U. has a calibration and maintenance program for its measurement equipment.

DEKRA Testing and Certification S.A.U. guarantees the reliability of the data presented in this report, which is the result of the measurements and the tests performed to the item under test on the date and under the conditions stated on the report and, it is based on the knowledge and technical facilities available at DEKRA Testing and Certification at the time of performance of the test.

DEKRA Testing and Certification S.A.U. is liable to the client for the maintenance of the confidentiality of all information related to the item under test and the results of the test.

The results presented in this Test Report apply only to the particular item under test established in this document.

IMPORTANT: No parts of this report may be reproduced or quoted out of context, in any form or by any means, except in full, without the previous written permission of DEKRA Testing and Certification S.A.U.

General conditions

1. This report is only referred to the item that has undergone the test.
2. This report does not constitute or imply on its own an approval of the product by the Certification Bodies or competent Authorities.
3. This document is only valid if complete; no partial reproduction can be made without previous written permission of DEKRA Testing and Certification S.A.U.
4. This test report cannot be used partially or in full for publicity and/or promotional purposes without previous written permission of DEKRA Testing and Certification S.A.U. and the Accreditation Bodies.

Uncertainty

N/A

Data provided by the client

The following data has been provided by the client:

1. Information relating to the description of the sample ("Identification of item tested ", "Trademark", "Model and /or type reference tested", "Other identification of the product", "Features" and "Test Sample Description").
2. The ICS provided by the customer via the LoRa_Certification_Questionnaire_V2.1 and used for testing are indicated in Annex B.

DEKRA Testing and Certification S.A.U. declines any responsibility with respect to the information provided by the client and that may affect the validity of results.

Usage of samples

Samples undergoing test have been selected by: INTEGRA METERING

Sample M/01 is composed of the following elements:

Control Nº	Description	Model	Serial Nº	Date of reception
68706/001	Water meter	RUBIN LW8	N/A	2021-11-02
	V70.6			

1. Sample M/01 has undergone the test(s) specified in subclause "Test method requested".

(* Test sample description

Water meter using ultrasonic free pipe technology. Certified for billing (MID) of potable water, ideal for remote data collection, leak detection, network efficiency management.

Family of products covers DN50 to DN200 and offers a high measurement range (R500).

16 years of lifetime for product in operation with 2 LoraWAN uplinks per day.

Identification of the client

INTEGRA METERING

Address: 12 rue Font Grasse
Postal code, City: 31700, Blagnac.
Country: France.
