

Big news!

ZquelAI, LLC is excited to share that the ZsenseCVC sensor is now LoRaWAN certified.

Built for advanced indoor air-quality monitoring, ZsenseCVC detects cigarette smoke, vaping, and cannabis within up to 750 sq ft. It also includes a tamper alert and flexible wall or ceiling mounting to support compliance and safety.

Key features:

- Compact form factor: 4.38in X 4.38in X 1.60in
- Battery powered, no wiring required
- 5-year battery life (2 lithium C cells)
- LoRaWAN-enabled for reliable long-range connectivity
- Optional Wi-Fi model for standalone installations
- Real-time alerts for cigarette smoke, vaping, cannabis, tamper events, low battery, and check-ins

Thank you to our team for making this milestone happen. We can't wait to see the impact in smart buildings, apartments, short-term rentals, workplaces, and public spaces.
